Subject: FW: Shore Cleanup- CANCELED

All,

A teacher from a school in Lyndhurst just cancelled a volunteer streambank cleanup I scheduled with her several months ago in Riverside County Park in Lyndhurst due to her concerns with the levels of dioxin discovered at the site adjacent to the park. See below.

Just a real-life example of the contamination's impact. This reinforces the importance of educating the public on the results of the risk assessment.

Thomas,

As per my superintendent, Dr. Marinelli, we have to cancel our shore cleanup trips (3/29 and 6/12). She is not comfortable with the students cleaning up the material in the park with the recent findings of dioxins and PCBs chemicals. Please let me know you received the email. Thank you for your time.
